

SENIOR CONSULTANT – RISK ACCOUNTING

Budget: S\$60k to S\$80k per annum

Job description

The job will involve working closely with clients, broking and claims staff across a number of groups and countries within Asia in order to provide business interruption consulting advice.

The job will also involve working closely with Insurers (and their representatives) to negotiate business interruption terms or claims on behalf of our clients.

More specifically the job will involve the following:

1. Calculate Business Interruption values in accordance with respective policies to enable clients and brokers to go to market and insure agreed calculated values.
2. Provide Business Interruption consultancy advice on policy wording and structure.
3. Calculate Business Interruption and Material Damage losses in accordance with respective policies in the event of a claim
4. Provide overall claim management service, taking responsibility of a claim's progress from engagement to settlement.
5. Generally acting as an advocate to clients during claim negotiations and settlement.
6. Promote Business Interruption Consultancy expertise in appropriate external / internal forums and build relationships and reputation with key players in insurance claims (loss adjustors, lawyers, brokers, claims handlers).
7. Demonstrate expertise and gain confidence of major clients and prospects in consultancy capabilities.
8. Continually undertake training, through courses, technical presentations or conferences.
9. Working across a number of groups you will win the confidence of brokers, clients and insurers often in conflict situations. Driving the development of our consultancy capabilities.
